FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have nene of the object! ins, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is aerinonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowel. Being purely regetable, no harm can arise from their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irrital Lity, Bilfons Headache, Billious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of direc. I action in the liver. As an aperient, they afford prempt and sure reli fin Costiveness, Pios, Colic, Dysentery, Hamors, Serofula and Serrey, Colds with sorners of the body, Ulcers and impurity of the blood; in short, any and every ease where a purgative is req ired.

They have also produced some singularly successful cures in Rhe matism, Gout, Dropsy, Gravel, Erysiplas, Palpitation of the liteart, Pains in the Back, St mach, and Sile. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose sit onlates the

AYER'S CHERRY PECTORAL,

For the rapid Cure of COUGHS. COLDS. HOARSENESS, BRONCHITIS. WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

This remedy has won for itself such notoricty from its cures of every variety of pulmonary disease, that it is entirely unnecess ry to recount the evidences of its virtues in any community where it has been employed. So wile is the field of its users the constant of its cures. has been employed. So wide is the field of its usefulness, and so namer is the cases of it cares, that almost every section of the country abounds in persons publicly known, who have it in restored from alarming and even de perate coseases of the lungs by its use. When once tried its superiority over every other medicine of its kird is too apparent to escape observation, and where its virtues are known, the pullie no longer hesits te what entidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but if it the milder varieties of Colds, Coughs, Hoansiness, &c.; and for Children it is the pleusante t and safest medicine that can be obtained.

As it has long been in const nt use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

Col. R. B. Carpenter.—We know not when we have been so strongly impressed with the sense of horror at the shedding of human blood, as when reading the account of the attempted assassination of him, our old, well-tried, and truest friend. He was one whom to know was to love, and we think we know him too well to endorse anything that may be said, or has been said, in any of the papers, against his character, either as a private or public citizen. Rumor, with her ten thousand tongues has spread a story from which we know both he and his friends can vindicate him. We do not believe that he had been guilty of what the Cincinnati Gazette charges; and, if he had, that he would be so imprudent as to boast of it.

The rest of the Cincinnati papers say that Perkins (the attempted assassin) had no cause what ever for his barbarous assault. If this be true (as we doubt not) the sooner he leaves the soil of Kentucky, the better, for he is a villain whom it were hase flattery to call a coward, and an insult to the dignity of the public to recognize as a defender of personal honor.

When we first read the account of this melancholy occurrance, we thought that it could not
